

STREAMLINE THE UNCLASSIFIED SPARE PARTS AND SERVICES PROCUREMENT IN YOUR CMMS

Uncoded parts and services represents a significant updating effort when it comes to maintenance management. Uncoded parts and services include:

- Hand tools, personal protective gear, hardware (nuts, bolts, ...)
- Medical equipment
- Maintenance services (upkeeping, repair, cleaning, ...)

Coding everything isn't realistic. That's why DIMO Maint offers a standard connector with the Proactis portal, allowing maintenance teams to access all their listed suppliers with one click.

THE BENEFITS

A single **solution** for all procurement needs.

Suppliers' agreements: product and service rates are always up to date.

Significant purchasing gains: benchmarking all your suppliers.

Quick software adoption: users quickly find their items, add them to their cart, and generate their purchase request in the CMMS.

Control of the entire spend through the elimination of rogue purchases.

Compliance: supplier risk is managed.

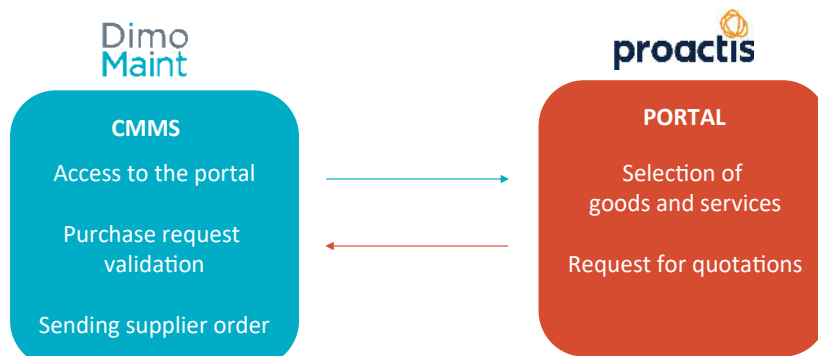

FEATURES

- Management of all purchase categories: spare parts, consumables, and other maintenance products and services (maintenance, repair, cleaning, ...)
- Simultaneous search across all your catalogs and supplier websites.
- Benchmark of your suppliers' offering.
- Comparison of services without preexisting service level agreements.
- Generation of a purchase request in the CMMS with all the item lines
- Connects easily to your CMMS, ERP, or any procurement solution.

Proactis' global support helps all your suppliers upload their catalogs and digitalize your orders in EDI. The implementation of the solution is fast since:

- Catalogs are managed by Proactis
- The portal becomes a showcase for suppliers
- Real time supplier updates
