

SIMPLIFY AND AUTOMATE YOUR MAINTENANCE CALLS SAVE 20 MINUTES WITH EVERY PRESS!

Integrated with DIMO Maint CMMS software, Button Hop ensures: Thanks to its **expertise in digital transformation**, Button Hop is helping industrial companies move towards Industry 4.0 with a connected **box (liIoT)**: 100% autonomous, secure, **Interoperable and Made In France**.

Pressing the liIoT enables operators to trigger processes such as information feedback, order taking, event recording and service requests, from their workstations. These processes were previously carried out verbally, on loose sheets of paper, or using digital tools located far from the workstations.

Information is instantly **recorded in the CMMS (maintenance)**, ERP, teams/slack, e-mail/sms (support services: Quality, Appro, HR, etc.) **or in any other of the company's digital tools**.

THE BENEFITS PROVIDED

Integrated with DIMO Maint CMMS software, Button Hop ensures:

the QWL of operators and managers

company performance improvement

the company's energy performance (CSR)

inclusion and employer brand

ROI in 6 months

functional economy: focus on use rather than sale

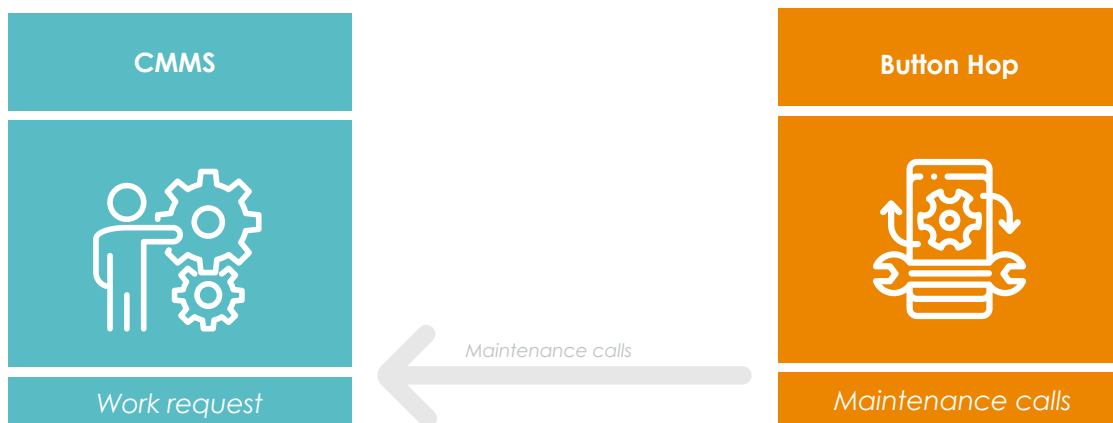

FEATURES

- 10-year or 10,000-stroke battery life
- Runs on simple AA batteries (eco-design)
- Wireless IoT connection (no additional equipment required)
- Customisable and modifiable functions
- Interoperable
- Web application, mobile (Android and iOS) and connected screen for day-to-day control
- Made in France

STANDARD PREREQUISITES

- DIMO Maint MX CMMS
- Button Up

A subsidiary of DIMO Software, DIMO Maint has specialised in publishing maintenance management software for more than 28 years. With 2,000 customers worldwide, DIMO Maint is positioned today as a major player on the new generation cloud and on premise CMMS solutions market.

DIMO Maint supports the digital transformation of maintenance departments within organisations from SMEs to key international accounts in all business sectors.

Mobile, scalable, user-friendly and easy to deploy, DIMO Maint's CMMS solutions simplify and secure maintenance teams' everyday lives. They are interoperable and facilitate communications within and between departments.

Button Hop is a Nazairi-based start-up with ambitions to become the European leader in IIoT for factories 4.0.

Thanks to its expertise in digital transformation and its 100% autonomous connected device (IIoT), Button Hop helps industrial operators, from SMEs to major accounts, to gain in autonomy and performance by automating information feedback from their workstations.

Present on the shipping line of RAJA (European leader in packaging) since 2019, Button Hop saves each operator 20 minutes per press.

It was these same operators who recommended Button Hop to their subsidiary LOGISORGUE, now a customer.

And because they believe that the best demonstrations take place in the field, Button Hop is offering to test their solution using a POV (Proof Of Value) to validate its benefits for the company.
