

ASSET MAINTENANCE MANAGEMENT SOFTWARE CMMS/EAM FOR SAGE 300

DIMO Maint offers Sage 300 users (formerly Sage ERP Accpac) a comprehensive, flexible and fully integrated CMMS/EAM solution, which meets the asset maintenance management needs of small and medium businesses.

DIMO Maint CMMS is designed **to maintain, manage and control assets efficiently and economically.**

As a source of savings and a vehicle for performance, equipment and asset maintenance is strategic for companies and organizations. **Efficient maintenance** provides a better return on investment and **prevents critical failures** that generate delays in deliveries or service interruptions.

So companies must have effective means to secure and maintain their assets at the lowest cost.

Why deploy maintenance processes with Sage 300?

- Provide companies with an overview of their business by assuring a single repository and compliance with procedures
- Equip the technical services with a maintenance solution tailored to their business, easy to use and quick to deploy
- Optimize spare parts, stocks and suppliers management
- Avoid the risk of errors between Sage 300 business management and CMMS
- Apply the rules of business management to CMMS at every step of inventory and purchasing management process (e.g. replenishment threshold, control units, main supplier, ...)

Our expertise boosts your performance

The DIMO Maint CMMS - Sage 300 integrated solution covers all of the enterprise's maintenance process optimization and streamlining requirements via a single connector. The DIMO Maint maintenance software range is the specialist's answer to the financial, technological and functional issues faced by businesses of all sizes in all sectors of activity.

More reliable facilities

DIMO Maint CMMS also has a direct effect on reliability, increase, availability, and performance by capitalizing on the experience gained, the easy setting up of an efficient preventive maintenance plan, the traceability of interventions, and compliance with maintenance procedures.

Lower costs

Integrating DIMO Maint CMMS and Sage 300 enables you to measure and optimize the cost of ownership of your company's production facilities and asset base. In addition, maintenance costs are kept in check thanks to lower storage costs and optimized monitoring of subcontracting costs.

Better organization for enhanced performance

DIMO Maint simplifies asset management and renewal decisionmaking by providing a comprehensive range of technical and financial indicators: work order analyses, failure rates, cost management charts, ABC asset list, rotation rates, etc.

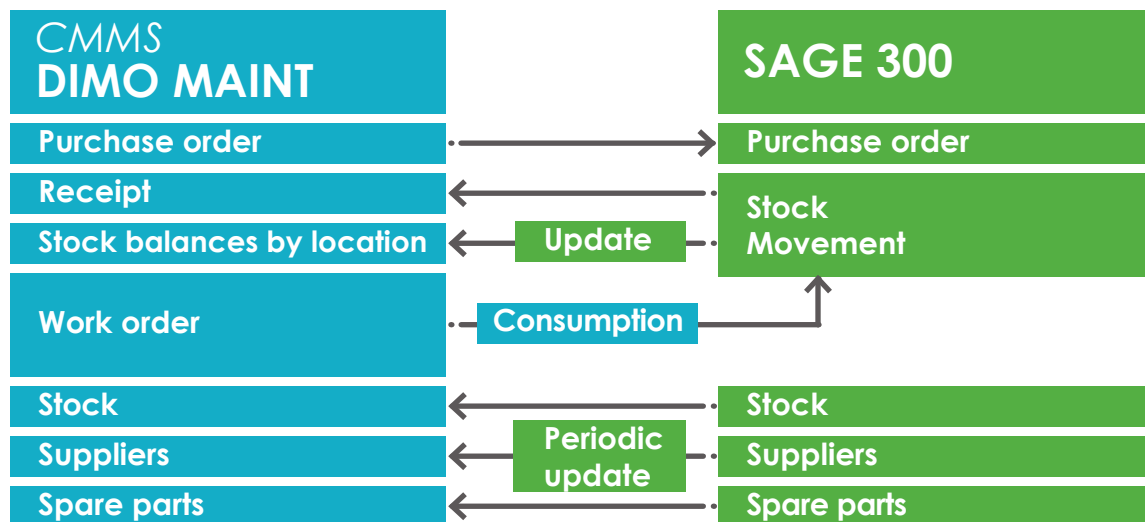

A HIGH VALUE-ADDED SOLUTION

- Automatization and streamlining of purchasing process
- Synchronization of article repositories, stocks, and suppliers
- Optimization of inventory management
- Transparency and increased control on expenditure
- Standardization and systematization of management rules and procedures
- Increased control and monitoring of asset costs
- Elimination of double entry
