

Digitize Your Maintenance Quickly and Independently with Our Training Videos Choose the Free Start Offer!

Are you looking for or consider upgrading to a maintenance software solution that is easy to use, quick to implement, and designed for your technicians ?

DimoMaint MX is a cost-effective and intuitive cloud-based solution designed to help users with limited IT experience focus on what really matters: maintenance. With quick access to information, analyzing and sharing data becomes simple and efficient.

With the "Free Start" offering, DimoMaint enables a fast and autonomous deployment of its DimoMaint MX solution, available in Express, Standard, or Full versions.

ADVANTAGES OF A "FREE START" PROJECT

PRICE: Best Value for Money on the Market

This offer allows you to kickstart your project without any additional training costs.

FAST IMPLEMENTATION: Become Independent and Operational Without Additional Training Costs

While traditional on-site projects typically take 4 to 8 weeks, with the Free Start offering, you can kick off your project after just 4 to 7 hours of self-training.

PERSONALIZED REMOTE ASSISTANCE: A Proven Methodology

To ensure optimal support, DimoMaint provides remote assistance for your project manager.

Make your maintenance management easier with an ergonomic and intuitive Cloud solution!**

A FAST-TRACK REMOTE IMPLEMENTATION IN 5 STEPS

With the dedicated guidance and remote support of a DimoMaint expert, your project manager will seamlessly implement the solution.

ESSENTIAL REQUIREMENTS TO QUALIFY FOR THE "FREE START" PROJECT

- **Clearly Defined CMMS Project** – Your project must fit within the functional scope of **DimoMaint MX**.
- **Single-Site Implementation** – The deployment must be for a **single site** with no need for system integrations.
- **Dedicated Point of Contact** – A **single, available** project representative must be assigned for the entire duration of the implementation.
- **Operational Internet Connection** – A stable connection is required to ensure smooth **remote implementation**.

Break Free from Time and Budget Constraints!
Simplify your maintenance management with an ergonomic and intuitive cloud solution that keeps you efficient and in control.
