

RETAIL CMMS SOFTWARE FOR STREAMLINING MAINTENANCE ACROSS YOUR STORES

DIMO Maint brings digital to your maintenance operations

Focused on safety, customer satisfaction and maximizing rentability, the maintenance of your in-store infrastructure and equipment is a critical pillar of your activity.

As a Retail professional, your priorities focus on the creation of optimal operating conditions for your stores, ensuring the safety and comfort of both your clients and employees, availability of strategic assets, compliance with current regulations, as well as the optimization of operational costs.

Perform

Make sure all critical assets (lighting, HVAC, registers, shelvings, etc.) is operational to avoid any service disruption or revenue loss.

Secure

Meet all legal obligations for safety, hygiene, and environmental management (ex: fire inspections, HVAC system maintenance)

Analyse

Access relevant indicators to closely track maintenance activity of your store(s).

Save money

Control directly maintenance costs (unexpected breakdowns, resources, ...)

“

CMMS allows maintenance team to save time by having instant access to complete work requests with all the information needed to get the job done right, whereas there were a lot of phone calls and emails.

Thomas ADDIS, Technical Director at L'Incroyable – 36 stores

”

DIMO Maint, the CMMS adapted to Retail needs

- **Centralized communication portal**
A single point of access for managing work requests and purchases, streamlining communication and coordination.
- **Comprehensive management of maintenance activity (corrective, preventive, regulatory)**
Global overview of your assets, like heating, air conditioning, electrical system, for fast and efficient interventions.
- **Spare parts inventory management**
A complete visibility of your spare parts inventory by store and simplified management of your inventory.
- **Innovative mobile solution**
A mobile app that allows technicians to work with flexibility, even offline, with instant access to documentation.
- **Structured assets inventory**
A single repository for a global and accurate view of stores, assets and providers.
- **Performances monitoring**
Clear and comprehensive indicators (quality, availability, reactivity) to analyze and optimize your maintenance operations.
- **Contractors and contracts tracking**
Transparent and efficient tracking of interventions, timelines, costs and quotes, with a portal dedicated to contractors for real-time tracking.
