

INTEGRATE MAINTENANCE PROCESSES INTO ACUMATICA FOR EVEN GREATER PERFORMANCE

Asset management (equipment, infrastructure, vehicle fleets, or buildings) is a strategic priority for any business. Even minor malfunctions can lead to significant financial losses, disrupt production, or delay deliveries. That's why companies need to give special attention to maintenance operations, especially by embracing digital solutions.

Computerized Maintenance Management Systems (CMMS) help businesses efficiently manage and monitor equipment maintenance. When integrated with the Acumatica ERP, CMMS provides a comprehensive overview, tighter cost control, and smoother operational continuity across the board.

THE BENEFITS

Gain full visibility for smarter asset management

By integrating your CMMS with Acumatica, you centralize all equipment-related data, giving you complete control over maintenance costs and maximizing resource availability. You'll cut down on administrative processing time while boosting your team's operational efficiency.

Streamline Item, Inventory, and Vendor Data

Centralize and standardize key information to improve cost analysis and simplify resource management.

Ensure Secure and Seamless Integration Between Your CMMS and Acumatica

Eliminate duplicates, oversights, and data entry errors: the smooth integration between DIMO Maint CMMS and Acumatica boosts team productivity.

Apply Your ERP's Procurement Rules to Maintenance Operations

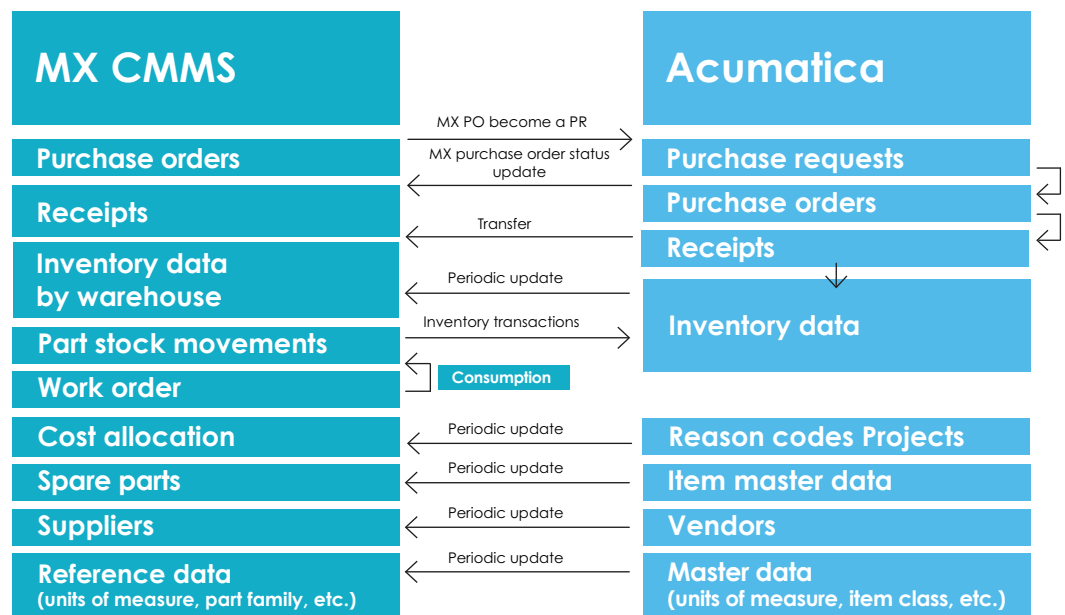

Automatically pull ERP settings (reorder points, preferred vendors, and order units) into your CMMS for greater consistency and efficiency.

FEATURES

- Submit and track purchase requests
- Sync inventory between the ERP and the CMMS
- Push inventory movements from the CMMS back into Acumatica
- Periodic updates of:
 - ✓ Spare parts
 - ✓ Vendors
 - ✓ Cost centers

STANDARD REQUIREMENTS

- Subject to the specific DIMO Maint CMMS solution in use
- Compatible with the Acumatica Cloud ERP version

Acumatica is a modern cloud-based ERP built to meet the needs of growing small and mid-sized businesses. With its open, flexible architecture, Acumatica delivers smooth user experience, real-time visibility across all operations, and native integration with a wide range of business applications. Its modular design allows it to adapt to the unique needs of each organization, enabling more agile and connected management.

A subsidiary of DIMO Software, DIMO Maint has specialised in publishing maintenance management software for more than 30 years. With 2,200 customers worldwide, DIMO Maint is positioned today as a major player on the new generation cloud and on premise CMMS solutions market.

DIMO Maint supports the digital transformation of maintenance departments within organisations from SMEs to key international accounts in all business sectors.

Mobile, scalable, user-friendly and easy to deploy, DIMO Maint's CMMS solutions simplify and secure maintenance teams' everyday lives. They are interoperable and facilitate communications within and between departments.
