

# CMMS 4.0 SOFTWARE FOR THE FOOD AND BEVERAGE INDUSTRY

## DimoMaint leveraging digital solutions for industrial performance and equipment reliability

In the food and beverage industry, maintenance **is a primary driver of operational excellence**. It plays a critical role in ensuring equipment availability, food safety, regulatory compliance, and cost control.

For **maintenance managers** and **industrial directors**, the focus has shifted beyond simple repairs. The challenge now lies in **strategic maintenance management** predicting failures, securing critical assets, and aligning maintenance activities with production, quality, and profitability goals.

Digitalising maintenance through a CMMS (Computerised Maintenance Management System) has become a strategic necessity. It allows companies to streamline processes, improve industrial reliability, and drive overall facility performance.

### Improve

Improve the availability and reliability of your equipment by structuring preventive maintenance and reducing unplanned downtime on production lines.

### Secure

Control industrial and food safety risks and ensure regulatory compliance (HACCP, IFS, BRC, ISO 22000, FDA, 21 CFR Part 11, etc.) through full traceability of maintenance activities.

### Protect

Secure critical equipment, the cold chain, and sensitive operations to protect people, products, and the industrial environment.

### Save

Control maintenance costs by analysing failures, optimising resources, and managing spare parts inventory.

*I went through a three-day audit, and there were no issues at all regarding maintenance. We carried out a traceability test for a specific date, and within just a few clicks I was able to retrieve the related maintenance and cleaning work orders. It's an invaluable time-saver. The CMMS fully meets the traceability requirements imposed by IFS and BRC certification.*

**Romain Bernard, Maintenance Operations Team Manager at EURIAL, a dairy cooperative of the Agrial Group**

## DimoMaint, the CMMS designed for maintenance managers and industrial management teams.

- A visual asset hierarchy providing a clear view of equipment assets and their criticality
- Optimised work planning aligned with production constraints  
Une gestion centralisée des demandes d'intervention pour prioriser et fiabiliser les actions
- Centralised management of work requests to prioritise and secure maintenance actions
- Controlled spare parts and inventory management, focused on availability and cost efficiency
- Structured preventive maintenance, including inspections, cleaning and calibrations
- Management dashboards to monitor availability, reliability and maintenance performance
- A predictive approach to anticipate failures and improve industrial asset reliability
- Seamless integration with ERP, MES and supervisory control systems

## Among our food and beverage CMMS customers

### Cereal products, oils and fats

Agrial  
Copag  
Dijon Céréales  
France Luzerne  
Limagrain  
Natup  
Panzani

### Animal feed

Adm Roumanie  
Alf Sahel Maroc  
Groupe Depre  
Luzéal  
Neovia  
Virbac Nutrition

### Beverages

VBM - Varun Beverages  
Volvic  
Le Froid  
Skol Brewery  
Les vignerons du Sieur d'Arques  
Brasserie Orval  
Vinovalie

### Confectionery and sweet products

Cafés Liégeois  
Baker & Baker  
Chocmod  
Chocolatree - Savencia  
Dolis  
Gardel Sa

### Specialised nutrition

Bariatric Canada  
Haeva Industrie  
Health Wright  
Products  
Nutergia France  
Sanygran Espagne

### Dairy products

Milleret Centrale  
Laiterie Notre Dame  
Leffond  
Eurial  
Valley Milk LLC  
Terra Lacta

### Meat, poultry, and processed meat

Agrial  
Bell France  
Groupe Depre  
France  
Hgtf Hendrix Genetics  
Turkeys

### Seafood products

Moroccan China  
Fischery Corporation  
Ferme marine des  
sanguinaires  
Groupe Barba  
La Vivaraise

### Fresh and processed fruit and vegetables

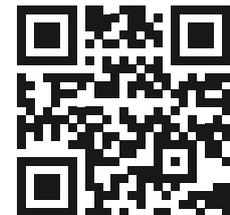

Concept Fruits  
Industrias Citricolas De  
Montemorelos  
Jus De Fruits De Moorea  
Naturesweet  
TMFD Cameroun

### Prepared meals, industrial catering, bakeries and pastry producers

Maison Monerrat  
Cité gourmande  
Compagnie des pâtisseries  
Dysal  
Frandex  
Mountain Top Foods
