

DIMO MAINT: THE CMMS SOLUTION INTEGRATED WITH SAP BUSINESS ONE

MAINTENANCE: A STRATEGIC DRIVER FOR OPERATIONAL EXCELLENCE

Efficient asset and equipment maintenance is critical for ensuring business continuity and profitability. A well-structured approach minimizes downtime, optimizes costs, and maximizes equipment uptime.

By integrating DIMO Maint with SAP Business One, businesses gain a comprehensive, automated solution that streamlines maintenance workflows while synchronizing with enterprise resource planning (ERP), including sales management, procurement, and inventory control.

WHY INTEGRATE DIMO MAINT CMMS WITH SAP BUSINESS ONE?

- **Unified operational visibility:** ensure a single, centralized database for maintenance and business operations while maintaining compliance with internal procedures.
- **Optimized maintenance management:** provide technical teams with an intuitive, scalable, and quickly deployable CMMS tailored to their needs.
- **Enhanced inventory and supplier management:** improve tracking of spare parts, stock levels, and supplier relationships with automated updates.
- **Error-Free data exchange:** eliminate discrepancies between SAP Business One's ERP system and CMMS to maintain data integrity.
- **Seamless process synchronization:** apply sales management rules consistently across inventory and procurement workflows (e.g., reorder thresholds, purchase units, preferred suppliers, and automated replenishment alerts).

3 KEY BUSINESS BENEFITS FOR SMBs

Increased Productivity & Workflow Automation

Seamless data synchronization between DIMO Maint MX and SAP Business One eliminates redundant manual entries and reduces the risk of input errors. By automating maintenance and procurement processes, teams can focus on higher-value tasks, improving responsiveness and operational efficiency.

Enhanced Equipment Reliability & Reduced Downtime

A structured asset management system helps mitigate the risk of equipment failure through preventive and predictive maintenance. With improved tracking of works, businesses can maximize machine uptime and prevent costly unplanned outages.

Cost Optimization & Budget Control

The integration of CMMS with ERP provides visibility into spare parts consumption and maintenance costs. This proactive approach minimizes unexpected expenses, optimizes resource utilization, and prevents unnecessary procurement.

FEATURES

- SAP B1 master data synchronized to DIMO Maint MX
- SAP B1 inventory levels available from DIMO Maint MX
- Procurement requests to SAP B1 from DIMO Maint MX
- Picking distribution rules from DIMO Maint MX
- Leveraging SAP B1 setup for transactions coming from MX

STANDARD PREREQUISITES

Available for DIMO Maint MX

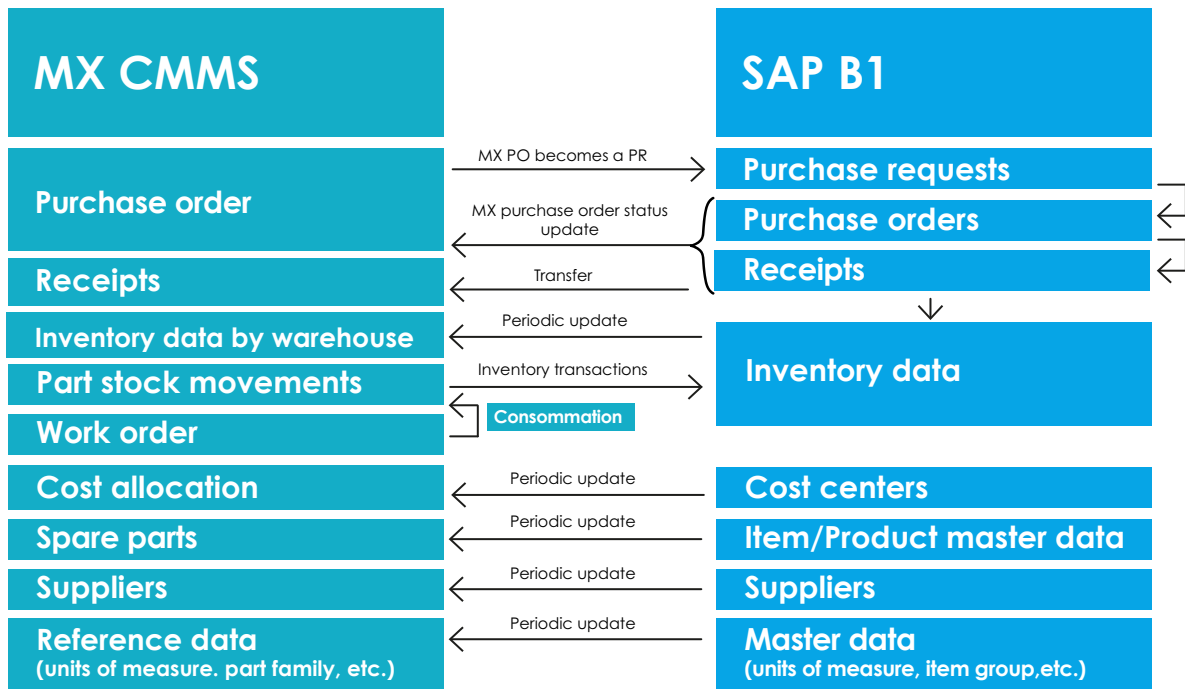

Compatible versions :

- SAP Business One 10.0

Integration Framework for SAP Business One version 2.0

(B1 if 2.0) and corresponding "package scenarios

SAP Business One

SAP Business One is an all-in-one enterprise resource planning (ERP) solution designed to help small and midsize businesses (SMBs) manage their operations efficiently. With over 80,000 customers worldwide, it provides real-time visibility and control over key business functions, including finance, sales, customer relationships, inventory, and production. The system features built-in analytics and reporting, enabling data-driven decision-making. SAP Business One is highly flexible, supporting on-premise and cloud deployments, and can run on SAP HANA® or Microsoft SQL servers. It also offers industry-specific solutions, scalability, and international capabilities with support for 28 languages and 50 localized versions. With an intuitive interface and mobile accessibility, SAP Business One helps businesses streamline processes, enhance efficiency, and drive growth in a cost-effective manner.

Dimo Maint

A subsidiary of DIMO Software, DIMO Maint has specialised in publishing maintenance management software for more than 30 years. With 2,200 customers worldwide, DIMO Maint is positioned today as a major player on the new generation cloud and on premise CMMS solutions market.

DIMO Maint supports the digital transformation of maintenance departments within organisations from SMEs to key international accounts in all business sectors.

Mobile, scalable, user-friendly and easy to deploy, DIMO Maint's CMMS solutions simplify and secure maintenance teams' everyday lives. They are interoperable and facilitate communications within and between departments.
